Not for Jo.

The Asheville Pioneer, like William A. Smith, of Johnston, evidently takes no stock in "Josiah." We commend the following polite parlances to the attention and consideration of the Radical Executive Committe :

"The idea that any respectable portion of the Republicans of Wake, Granville, Chatham, Johnston, Nash, Franklin, and Orange will support Joe Turner for *anything* is preposterous, without they have lost all sense of manhood, and have become absent-minded imbeciles and poltroons. He has heaped more uncalled-for abuse upon the party, in the press and on the stump, than any other ten men in the district. He has singled out its leaders, and without cause or reason, has assailed each one individually in the most abusive style. He has *hitherto* everywhere expressed the supremest contempt for every person who claimed to be a Republican, and his malignity has been so rampant that he denied even the hand of friendship to one and all, and with upturned nose and contemptuous sneer would even pass a Republican by, without a look or glance. He even drove men, who wished to be silent and passive, and who were pursuing the even tenor of their way without interfering in politics, into taking a decided position one way or another, and uttered the sentiment that in this State every man should take a stand for or against *him*."

But then the Pioneer should remember that it is necessary to take "Josiah," in order to "pulverize the damnable Democracy !"

Eloquent Utterances.

The Hon. Robert Toombs, of Georgia, made an eloquent and able speech in Atlanta, the other day, and concluded with the following thrilling words:

"We are going to triumph. Every breeze that sweeps over the country bears us the glad tidings of increasing power of the Democratic party. We are going to power. The Constitution demands it; the people demand it; Heaven gives it its smile, and, I tell you, fellow citizens, we are going into power. And when we do succeed and provide the remedy for all these evils, what a shout of victory will be heard all through this country ! How will you feel if you are not along with us? How will you feel if you go through the country carping about your peculiar nostrums to save the country? Oh, you will feel very badly. You will feel mean. My good friends, abandon your divisions. We have all had common sufferings; we have all had common victories, and just as we are coming out of our struggle, and just as the Democratic party is coming to power, don't you abandon us. It is a bad time to get out of humor. Give the Democratic party time. You cannot expect all the evils inflicted by the Republican party in eighteen years to be remedied in an hour. You cannot expect a man with a long, trying disease to be cured in an hour. Give this party time. I think I understand the situation. I tell you it is going to bring relief. I tell you that when you are a few years older relief will come. I tell you all these miserable scars inflicted by the Republican party will be rubbed out ; I tell you the starved will have bread and the naked will have clothing. Every one of you will be the citizen of a happy and prosperous nation once more. This country is on the eve of prosperity never before known, unless some exceedingly great madness shall seize upon her. I don't mind how men talk ; I don't mind how men differ. All I wish is that men shall not break ranks. Let the soldiers talk, let them differ, but don't let them break ranks.

I do not ask you to abandon any peculiar feelings you may have, while you may indulge your views and convince as many as you please that you are right. All I say is, keep in ranks; keep in step to the order, and I tell you victory will come, and it will not make much difference as to our peculiar theories. I have my peculiar views and I believe they will be ultimately adopted, but I believe that the Democratic party is wiser than I am, and if they are not right I don't want them adopted. When they adopt a remedy, that is going to be my remedy. It is impossible for pen to picture or tongue to describe the prosperity we shall see if we wait and be true to each other. And why shouldn't we wait? Haven't we suffered alike? Haven't we all been wronged alike? And after we have suffered all the privations and misery of the half of forty years, shall we break ranks just as the eye falls upon Canaan? Advocate your views with your fellow-citizens, but go to the ballot box like men and tell everybody else to go."

Third District.

We learn, from the Wilmington *Review*, that the Republican Executive Committee of this District met in Fayetteville, on Thursday, and, after consultation, decided not to make a nomination for Congress.

The Hon. A. M. Waddell, in response to an invitation of the various trade and commercial organizations of Wilmington, addressed a large audience on Thursday evening. The *Star* says:

"The address was devoted, as requested in the invitation, mainly to the discussion of commercial and marine matters, and was an able and intelligent review of the condition, past and present, of these important features of business. The arrangement and matter of the address, together with the splendid manner in which it was delivered, deeply impressed the audience, and added no little to the already high and enviable reputation of the speaker as an orator."

Cotton Brokers' Circular.

By Cable to the News.

LIVERPOOL, Sept. 20.—This week's circular of the Liverpool Cotton Brokers' Association, says that there was an increased demand for cotton during the week, and good business was done, but the stock on hand was freely offered, and in some instances quotations slightly declined. For American there was a good general demand, and the market was steady although freely supplied. In Sea Island business was small at barely previous quotations. Futures were less freely offered in the early part of the week, and prices advanced 3-32 d. on Tuesday, but the advance was lost at the closing with 1-32 d. decline from last Thursday for all but very near positions, which are unchanged.

WASHINGTON, Sept. 20.—A telegram from Gen. Sheridan says, on the ninth of September 300 Cheyennes broke away from their agency at Fort Reno. Troops went in pursuit. Captain Pendlebrock, with two companies of cavalry, came upon them at or near Cimmon. An engament took place in which three men were killed, and three wounded. Several horses were wounded. The attack was unsuccessful. Pendlebrock moved back to the woods at Camp Supply, reporting he had engaged one hundred and thirty warriors who had surrounded and attacked him, while their families moved north. Preparations are made by General Pope to meet the Indians at or near the Arkansas and along the line of the Kansas Pacific. Also in the Department of the Platte along and north of the Union Pacific. There is a strong hope that the troops will be abale to meet and capture or destroy them. Indians grievances are insufficient food, irregularity in its delivery, and permision given the Arrapaches to live out near Big Horn Mountains. The Cheynnees claim the same right.

Valentine's Meat Juice.

Mr. Mann S. Valentine, of Richmond, Virginia, has conferred upon mankind a great boon, in giving to the world his preparation of "Meat Juice," which is acknowledged to be the best "medicine food" ever offered to the public, being the only preparation which contains albumen in an uncoagulated form. This result has been achieved by not allowing the heat applied in the preparation of that article to exceed 130 degrees. The "Meat Juice" has been subjected to heat, cold, and the fluctuations of different climates, without change in its character; it took the highest premium, awarded at the International Exhibition at Philadelphia in 1876 and the medal at the Paris Exposition of the present year and which is of far more value, it has been unqualifiedly endorsed, in unmistakable language, by the most eminent surgeons of the U. S. Army and Navy; surgeons in charge of general hospitals throughout the Union and Canada, superintendents of Insane Asylums, the American Pharmaceutical Association and leadieg physicians of the American continent, irrespective of locality, by the medical journals, and by the press generally of the country. The fame of the preparation having extended beyond this country, Mr. Valentine has enlarged the capacity of his factory to meet the increased demand of the trade for this valuable dietic for the sick.

The manner in which Mr. Valentine has introduced his "Meat Juice" to the public is highly commendable, and bears a striking contrast to the mode in which such articles are usually put on the market by flaming advertisements. Mr. V. persistently refuses to advertise his preparation—invariably introduces it through the medical profession by sending specimen packages to eminent surgeons and physicians for trial.

The meat juice has been largely used in all localities visited by yellow fever since 1873, and without exception, it has given entire satisfaction, attested by certificates of Boards of Health and leading physicians from these localities. It is also a valuable remedy in seasickness, allaying the nausea and vomiting.

Trinity College---Flattering Prospects.

Correspondence of the News.

TRINITY, Sept. 20.

The college opened under very favorable auspices, which have grown much brighter since the beginning of the session. The number of matriculates was about as usual, but the roll has been considerably increased by the arrival of many new students from different parts of the State.

One great attraction, which our village affords, is the very reasonable rates at which first class board can be obtained. The clubbing interest has not abated, nor is it likely to abate, as long as students can obtain good board for an amount not exceeding five or six dollars per month. Fine educational advantages are thus placed within the reach of almost all classes. Two new boarding houses have recently been opened.

The increase of business in Trinity has induced Mr. Benson Parker to open a store of his own, much to the advantage and delight of the citizens.

The farmers are taking advantage of the weather, in attending to the usual business pendent on farm life at this season.

NOTES.

Whatever else may be said about Butler, and undoubtedly there is a great deal else to be said about him, mostly to his discredit, it is not to be denied that he makes the most lively and interesting canvass of any politician in the United States. As the universally benevolent old lady observed of the enemy of mankind, it would be well for us all if we possessed Satan's industry and perseverance. Wherever Butler is there is the interest of the campaign in Massachusetts, and his present canvass is particularly pictuesque or revolting accordingly as one looks at it from a picturesque or a moral point of view.—New York World.

The Attempted Jail Breaking.

HILLSBORO, Sept. 18.

I notice in a recent issue of your paper an article upon the attempted jail breaking in Hillsboro. The breaking was not attempted by the Chapel Hill prisoners, who were confined in a separate cell in another part of the building. Robert Baswell, held on a charge of murder at Durham, is the party who, with several others, broke out of the cell, and attempted to overpower the jailer, who was seriously hurt by a blow upon the head with a stick.

SOME VIEWS OF BUTLER.

The Old-Time Democratic Organ of Boston Reviews the Coup d'Etat.

Special dispatch to the Times.

BOSTON, September 17.

The Post of to-morrow will say in its leader upon the performance at Worcester :

"The violence and brigandism exhibited under General Butler's inspiration is typical of the man and his purposes. The introduction of Kearney to stir up bad blood and play upon popular passion was the first act in this drama. The raids upon Democratic caucuses and defrauding our party of its proper representatives was the second. The marshaling of his defeated hosts to violently seize and hold possession of the hall for holding our convention and compelling its session elsewhere was the third. Destruction is his leading aim. The desperation of a maddened brain is seen in every movement of this bold pretender. The defiant foe of two parties, both of which he has deserted and betrayed, he now seeks to carry into effect by violence, fraud and intimidation his purpose of destroying our national credit and, in 1880, proposes to march boldly forth under the black flag of repudiation. From this time forth until he shall himself be captured and his purpose effectually throttled, it must be the irresistible determination and great business of the friends of Democratic principles and of all lovers of order, sound government and security, both in the State and nation, to oppose his infamous plot.

The hall of the Democratic Convention was seized by a disappointed minority from sheer desperation, but being too powerful in numbers to be ejected, except by force, the regular Democrats had no other alternative but to postpone their convention to a future day. Mob rule has temporarily gained the day for once. It will be our fault and crime if it shall succeed a second time. If the Democracy of Massachusetts are to be bull-dozed and slaughtered on their own hearthstone, let them know it beforehand and prepare for it. If, in seizing the place of meeting of the regular Democracy at five o'clock in the morning, Butler has acted on the principle that it is the early bird that catches the worm, it is now the duty of the friends of order and good government to teach him that it is the early worm that gets caught. Unless we misjudge the public sense and sober second thought of an insulted party and an outraged people, General Butler will find that this coup d'etat, instead of being a victory, will prove a disastrous and final defeat."

Not to be Tampered With.

A dreadful magazine explosion occurred near Bradford, Pa., at the nitroglycerine works of the McIntyre Torpedo Company. A safe had been tampered with by burglars, some days ago, and the locks so injured that it could not be opened. Yesterday one of the managers and four of his assistants attempted to blow off the locks, and shortly after they entered the building an explosion was heard and large pieces of the iron safe, missiles, flesh and clothing of the victims were sent flying in the air and were scattered in every direction. The mangled remains of the men were found in all directions—some pieces hanging from the limbs of the trees, while one heart, still warm and quivering, was found on a stump a quarter of a mile away. It was impossible to identify the remains, and they were collected in boxes and taken to Bradford. The men were good citizens and their families among the best of the village.

The fox-terrier is a great favorite in Great Britain, and is getting quite well known in this country as a useful dog on the farm. For unearthing foxes he is as able as a ferret after rabbits; and in killing all sorts of vermin—rabbits, wood-chucks, skunks, rats, mice, squirrels, etc.—he has few equals; and next to a shepherd dog, there is none the farmer stands more in need of than one to destroy the vermin which prey upon his crops, trees and shrubbery. The fox-terrier is plucky, and brave as dog can be, facing danger and death like a true soldier. He is small, neat and comely easy to handle, and quick to obey. The "Tartar" strain, it is said, should be avoided as being an objectionable mixture with bull-terrier blood. A writer in an English paper, The Country, thus describes what he claims to be the true type of the fox-terrier : "Head level, and we'l filled up under the eyes; long and powerful jaw, with just a suspicion of flew, rather square, decidedly not a fast taper; ears small and drooping close—this is a *sine qua non*; eyes small and expressive; deep and rather narrow chest; shoulders well set back, with elbows working as straight to side as the cocks on a double-barrel; legs as straight as arrows; feet round; toes slightly arched, and not the least splayed; short body, well ribbed up; cannot have too much bone or muscle; must be as cobby as possible, and should be very near a breeder's definition of what a Shorthorn should be—a brick with the corners knocked off. He should not be more than seventeen pound weight, which is imperative; and his heart should be in the right place. He should stand low, and his coat, though close, should be dense and hard. The fox-terrier, as I have found him, is pre-eminently an intelligent dog; 'at all times to our will conformable, ever in fear to kindle our dislike."

Saturday evening Hiram Norton and Godfrey Norton, distant relatives, got into a difficulty near Old Hundred, in Richmond county, which resulted in the death of the latter. When they met, Godfrey accused Hiram of telling lies on him. Hiram made the same charge against him, when Godfrey drew a pistol and started towards him, Hiram ordered him to stop, and on his refusing to do so, shot him with a gun which he had on his shoulder when the two met, and he died instantly. Hiram Norton escaped, and when the Carolina Central train passed Old Hundred yesterday afternoon, he had not been captured.—*Charlotte Observer.*

THE SECREST TRIAL.

Thursday's Proceeding---Linking the Long Chain of Circumstantial Evidence---Strong Case against the Prisoner.

Special Correspondence of the News.

MARION, Sept. 19.

Maggie Secrest, late Mrs. Stevenson, or Stinson, as they as frequently call it in Union, was lost, both she and her four year old daughter, after leaving the house of Alonzo Kline, on Tuesday afternoon, March 6th, 1877, for no human being has yet come forward to say where they have since been seen. Going from thence in the direction of Hickory, which was but one mile and a half further on, no one in or about that town recalls their presence in the village or through the place, although they had said to Mrs. Kline that they had a letter to mail as they passed through Hickory. All trace of the woman and child was absolutely lost from Mr. Kline's until the finding of the remains across the Burke line, some ten months afterwards, some three miles from Hickory on the route to Morganton. If these remains are those of the woman and child referred to, what was Secrest doing with his time in the space of four miles and a half, from near midday until night-fall, for such a deed could not have been done in the open day within ninety yards of one public road, and almost in sight of another, and also the railroad. He must have driven slow, taking devious and the most unfrequented routes, and spent some time in searching out a good place for his operations under cover of the darkness. Perhaps testimony further along may clear up these points, for right here the real mystery and romance of the case begins. It has been proven that the place of finding the remains is on the route from Alonzo Kline's, in Catawba, where they dined and wrote letters on Tuesday, the 6th, to D. B. Mull's, where Secrest appeared alone on Wednesday the 7th, calling for dinner and mule feed. There are statements and theories regarding these matters and accounting for his movements on Tuesday afternoon and night, but these letters will not anticipate the evidence adduced on the witness stand.

SECREST JOURNEYS BACK HOMEWARD.

Mr. Hope C. Secrest was not a very genial or interesting traveller. Leaving Mull's, in the neighborhood of Morganton, after dinner he journed toward Lincolnton, arriving by night-fall at Mr. Roney's, having made seventeen miles that afternoon. Here he staid all night. But he was dull and uninteresting. He did not gratify the natural curiosity of the countryman respecting all travelers, and only said that he had been above Morganton to see an uncle, but he had moved away and he could hear nothing about him, and so he was returning to his home in Union county.

A TOURIST PROSPECTING THE COUNTRY.

Driving out from Mr. Roney's on the morning of the 8th of March, Mr. Secrest overtakes Hosea Burns, a wagoner bound for Charlotte, and all that day and the next they journed together, passing through Lincolnton on the 8th and reaching Charlotte an hour by sun the next evening, which was Friday, and they parted. On the route together Secrest had not much gratified the curiosity of his fellow-traveller, who was inquisitive as to who he was, where he had been and where he was going, beyond telling and spelling his name, and saying that he had been to Morganton to see his uncle, came up by Hickory, and preferred traveling by buggy to the train, though dearer, as he could see more of the country. He wanted to swap hats with the wagoner, and took one out of a trunk under the buggy seat (the witnesses who saw Secrest and the woman and child on the other route testified to a small trunk on the buggy,) but the trade did not please the Dutch descendant and he kept his hat, which he exhibited in court in a good state of preservation still.

BACK IN UNION.

On Sunday, March 11th, Secrest appears again in Union, first to the colored man, Isaac Harrison, the first witness examined. Isaac was on his way to church, and met Secrest in the road. Inquiring where was Mrs. Stevenson, Stevenson, Secrest told him that he saw her buy an emigrant ticket in Charlotte for Texas. He then goes on to the house of C. L. Doster, having a keen eye to business, for Mrs. Stevenson had left a trunk in care of Mrs. Doster, and Secrest came with an order or pretended order for the trunk. This lady wanted to know what he had done with Maggie and Minnie? He replied that he had left them in Charlotte that morning. She replied "You know you are telling a lie," and added, "Hoke Secrest, you have killed Mag and Minnie." He hung his head and replied, "They are all right." "Yes," she said, "they would be all right with you dead and boxed up in a hole." He remained some time, and wanted to swap the trunk for one of Mrs. Doster's. She would not trade, and he took the trunk of the missing lady away with him.

REGULARLY INTO BUSINESS.

Mrs. Stevenson had told her chief tenant, B. W. Clark, and his wife that she was going away with Secrest to be married; that if she left the child she would return in a week or two, but if she took her she might stay away some months. She might go to Pineville, South Carolina, to her uncle John Down's, or to Georgia, to her brother James Ezell. At another time she told Mrs. Clark that they were going to Burke or Buncombe county, but she told Mr. Clark that whenever she went she would write him what disposition to make of the crop, and her household effects she left with him, taking only a scant supply of clothing. On the 15th of March Secrest went to the house of Mr. Clark, exhibiting a writing which he said was an order from Mrs. Stevenson for all her household goods, and constituting him the custodian of all her property. He took away all the movables and has had sales. Money which Clark owed Mrs. Stevenson he gave his note for to Secrest, who went on collecting rents from him and other tenants and doing the business generally of an agent in charge of another's property. From time to time he has asked Clark if he had heard from Mrs. Stevenson? He never has had a line, or heard a word. But before going to Clark with his order or power of attorney, Secrest took counsel of Abel Helms, Esq., Magistrate and Mayor of Monroe. The paper being without date, Helms called attention to the fact, to which Secrest replied that he and Clark understood each other, and it would be all right if he should detect the defect. To Mrs. Helms he stated that he had bought all the property of Mrs. Stevenson and paid her for it, and that she had gone to Texas.

TELLS ANOTHER THAT SHE IS IN INDIANA.

To his old schoolmaster, Rev. E. David, on the 7th of April, Secrest went to get him to formulate a letter which was to be sent to Mrs. Stevenson for her to copy and send to her cousin, Fannie Dunn, in Union. He dictated for Mr. David to write as the copy for Mrs. S. to use, "I am now on my way to Indianapolis, and expect to go fifty miles further, to take charge of a school. You may have heard that Hoke Secrest and I were married. It was done that I might better travel on the train." "I sold Hoke Secrest my papers and other things." She told Mr. David to sign the letter or form, Maggie Stevenson, and it was addressed to Miss Fannie Dunn. He took the paper away with him, saying he would arrange about getting it to Mrs. Stevenson. To one and all he denied his marriage, which had been published in the Hickory Press, saying to some it was another man of the name of Secrest.

FINDING THE REMAINS.

Matters remained thus for many months, Secrest living in fancied security and in possession of the property of the missing woman. No one of her friends or relatives heard a word from her, but all suspected something wrong. Yet there was no clue. She had left home and friends in a strange manner and of her own accord. But at length a clue was found. On the 10th of January, 1878, J. H. Boughman and some other boys were hunting rabbits in the woods, some three miles from Hickory, and they came upon a place that presented somewhat the appearance of a grave. Where some dirt had been thrown up the snow had melted off and had been scratched out of the ground by some animal, and also a lock of human hair. They went away and reported what they had seen. B. F. Avery and a Mr. Adams having heard of it, went on Saturday evening and saw the place. On Sunday morning they went with others to dig in and examine. Taking out the snow and carefully removing the remaining dirt they found little pieces of a small human skull and light short hair. In the east end of the grave they found a pair of copper-tipped childrens' shoes and a pair of child's striped stocking lying together as if the wearer's legs had been crossed at the ankles, and then the feet and legs taken out of the stockings and shoes, leaving nothing in them but the horrid smell of a corpse. About the middle of the grave, which was dug some eighteen inches deep, but nearly all the loose dirt scratched out, they found various pieces of calico and other clothing, a whale-bone split, pieces of a straw hat, rib bones and a tin snuff-box about half full of snuff. Around about the place were scattered pieces of human bones, the soft portions gnawed and eaten off. They found at the edge of the grave a ladies' cloth gaiter, number three, and large pieces of a grown human skull.

SIGNS OF A VEHICLE.

This grave and these remains were found about ninety yards from a public road at a point some three miles from Hickory, just across the Burke line, nearest what is known as the hog hill road, though the old Morganton and Lincolnton road passes within a few hundred yards, as does also the Western North Carolina Railroad. There are traces of a vehicle with iron axles having been driven into the woods from the hog hill road to the grave. As it went in the small sapplings were barked on one side, and coming out, the other side was scraped as the axle-trees passed over and bent them down. When examined in January, by old woodmen, the sapplings so driven over showed that one year's growth had been added to them since they were passed over. And one sappling that had been broken down at the roots had sent up sprouts of one year's growth since the injury to the present tree. The signs left by the buggy or vehicle showed that it had come in from the direction of Hickory and gone out in the same direction. A partially decayed log that had been left run over bore the impress of the wheel, for the cuts were those of a square edged tire. It will be remember from the testimony that Secrest drove a nearly new buggy, that had been little used.

IDENTIFYING REMNANTS OF CLOTHING.

In the progress of the case to-day the pieces of clothing, shoes, hair, snuff box and other articles found in and around the grave were fully and completely identified as having belonged to and been worn by Mrs. Stephenson and child, by persons who saw them on the road and by neighbors and friends in Union county. A piece of bed blanket was found in the grave. One lady from Union testifed that Mrs. Stevenson made her an underskirt of a bed blanket only a few weeks before she left home and wore it on account of a deep cold she had had through the winter. A brother of the deceased husband of the lady identified the child's stockings found in the grave as the stockings he had himself given the little girl. Hoke Secrest told this gentlemen in April 1877, that Mrs. Stevenson was in Catawba or Buncombe county. Samples of goods from which the clothes of mother and child were made were brought from Union county and compared precisely. At the adjournment to-day, the State had to all appearances made out a complete case against the prisoner, every link in the long chain of circumstantial evidence being complete. The State will close its evidence to-morrow, and then the defence will consume at least one day more in offering evidence.

To Carpenters and Builders.

If you are needing anything in the way of edge tools or builders hardware, of any kind, we would advise you to call at J. C. Brewster's hardware house, where you can find a splendid stock of goods in this line, and at prices to suit the scarcity of money. All tools sold are fully warranted. He will contract for roofing at prices which will enable you to put in your bids (where there is any tin work to be done) lower than ever, giving you an opportunity to use tin in place of shingles.

He uses nothing except the best material.

Cigarettes, cigarette papers, and smokers' articles, together with polite attention to all these patrons. We have the sole agency for the "Sitting Bull" smoking tobacco, manufactured by E. H. It Might Have Been.

When taking a retrospection of our past lives, how often does conscience whisper to broken spirits and wounded hearts the sad, sad words, "It might have been ?" Thus it may be with the sufferer who endures the agonies of hemorrhoids, or piles, and heeds not the counsel to try Barham's Infallible Pile Cure, which is warranted to speedily and permanently cure this distressing disease. Manufactured by the Barham Pile Cure Co., Durham, N. C.

"The very Age and Body of the Times."

Perhaps our readers, this morning, would prefer a surcease from lengthy political dissertations, and as such a temporary abstinence "jumps with our own humor," let us catch the fleeting items as they fly through the columns of the Press, and gather up, in condensed form, such grains of news, or wisdom, or instruction, as we may find. It was the remark of Sir Walter Scott that he never traveled in a stage-coach, for an hour, with even the dullest of companions, that he did not learn something which he did not know before, and so, in the desultory fragments which we subjoin, the reader may perchance find somewhat of edification or information.

—We are gratified to learn that the Democratic party, as an organization, is not responsible for the nomination of Ben Butler. The language of the telegraph, to the effect that Butler was nominated by acclamation, was misleading. The Convention which conferred that distinction upon him was in truth a mere Rump, from which a great part of the delegates had already retired, and which was far from representing the solidity, still less the decency and dignity, of the Democratic party. The telegrams did not convey the full story, and left the public to the erroneous conclusion that no opposition had been made to Butler. The truth is, the hall in which the convention met was taken early possession of by a mob, and subsequently the members of the State Executive Committee, and other Democrats who were opposed to Butler, were howled down whenever they attempted to speak, and even threatened with bodily injury. Another Convention is to be held, which will properly embody the character and sentiment of the party.

—The elections to be held in Ohio and Indiana, on the 8th of October, will constitute the next important political event of the year. The Democratic chances in the two States are excellent. The party, united and strong, is fighting under the most favorable circumstances, while the Radical organization is demoralized and discouraged by the result in the States whose elections have already been held.

—The Asheville Pioneer nominates Grant for President in 1880 and Longstreet for Vice-President.

—"A leading Republican" (name not given) has been interviewed in Washington. He visited the rooms of the Radical National Committee and diluted their whiskey with a big lump of ice, thusly: "He stated, that the North Carolina Democrats would hold on to all the Congressional districts which they now have. It is understood that the State Republican Committee is so well satisfied of this that they have not applied for any funds, considering that it would be a useless waste to expend any money."

—A correspondent, writing from Graham, says that "Gen. Scales will give Tourgee the worst beating man ever had. He will defeat him by a larger majority than he did Jim Boyd, Col. Winston is no where in the race."

—The Elizabeth City *Economist* is assured by Maj. Yeates that he is confident of sucess. It says: "He has been through the district, has had the best opportunity of forming a correct opinion, and we place great reliance upon his conclusions candidly expressed."

—J. H. Slater is the new Democratic Senator from Oregon, in place of John H. Mitchell, the present infamous Radical incumbent. We say "infamous," advisedly, as his history and character are foul enough to exclude him from all decent associations.

—Senator Morton's wonderful leadership was the only thing that kept Indiana so long from becoming a Democratic state. Even that failed to save the presidential vote for Hayes in 1876, though by means of a most ingenious and partisan system of gerrymandering, the Republicans carried nine out of the thirteen Congressional districts and secured a majority of the Legislature. Now that Morton is dead, it is doubtful if the Republicans can again save the Legislature, which is doubly important this year, because it will both elect a man to fill out Morton's unexpired term (Voorhees having served thus far only by the Governor's appointment), and a new senator for the six years from next March.

—The total amount contributed by the city of New York, to date, for the relief of the yellow fever sufferers, is 109,000. Truly a noble liberality.

—Grant's Secretary of the Navy, Robeson, has been nominated for Congress in the Camden (New Jersey) District. If elected, he will naturally find a place on the Committee of *Knaval* affairs.

—The Philadelphia Times is not far out of the way when it says : "As for Massachusetts, a dose of Butler for one term will not kill her. She has prescribed that dose often for other patients, but not with the same nausea that is now wretching the physician." Nothing apparently can save the Bay State from that medicine but Democratic fidelity to principle, and in the manifestation of that fidelity we should rejoice as as above all other considerations.

—B. B. Creecy, Esq., the estimable and able editor of the Elizabeth City Economist, lately had his leg broken while bathing in the surf at Nag's Head. We rejoice to know that he is rapidly recovering. The following poetical plaint, in the last number of the paper, is *feeling* and expressive :

"Oh! tell me no more of the ocean-beat shore,
The foam-crested wave and the wild surging billow,
The rapturous wrestle in ocean's embrace."

—The Bible is likely to be read henceforth more than has been common in New Haven. It was excluded from the public schools in 1877 by a vote of five to three, the only Catholic member of the board voting against its exclusion, and the late local election turned on the issue of restoring religious services. After a most bitter contest, in which Protestants and Catholics were all mixed up on both sides, the ticket favorable to the use of the Bible in the schools was elected by 4,881 to 1,963. Whether such an agitation will promote either the usefulness of the schools or respect for the Bible may not be so clear, but it will be liable to make many study it with unusual interest for a season. There's nothing that makes the average American citizen so determined to know all about a book as the effort to prevent him from doing so.

—The Washington Post takes this practical view of the Butler imbroglio in Massachusetts : "Butler is not a member of the Democratic party, does not aspire to be, and would not be wanted by the party if he did. But he is a very convenient and effective bludgeon with which to smash the ugly and vicious head of Massachusetts Radicalism. There is, however, no need of taking the bludgeon formally into the family as a permanent article of furniture. That is all."

—Mr. Ho, one of the secretaries attached to the Chinese Legation in England, in engaged in translating Shakespeare into Chinese, and has made considerable progress in a translation of "Blackstone's Commentaries." A China-ized edition of Shakespeare would be, indeed, a curiosity. The French language, even, is utterly unadapted to the translation, as was witnessed by the fact that, in a Gallic version, the "Hail, horrors! Hail!" of tragedy was translated : "*Comment vous portez vous, les horreurs ; Comment vous portez vous,*"—literally rendered, "How-d'ye do, horrors ; how-d'ye do?" Again, the translated French reading of "Out, brief candle!" of Othello was "Get out, you short candle!"

—To jeopard the Democratic organization in the South by running or supporting Independent candidates for Congress is as great an act of folly as the feuds and contentions of the Jews who fought each other in the temple, while their common enemies, the Romans, were on the outside battering the walls of Jerusalem. In that case, however, the Jew who fought his brother did not summon the Roman, the enemy of both, to his aid. In our case the Independent must rely on the Radicals for his vote, and he must either appeal to them directly or he must treat them very tenderly and gingerly in his canvass.

—The funeral of the Gypsy Queen at Dayton, Ohio, the other day, an account of which we published yesterday, has given the papers an opportunity to discuss the strange people among whom she was so notable a character. Her mother, it is now said, although one hundred years old, can smoke and tell fortunes with the next one. It is evident from the crowd that assembled at Dayton, that the Gypsies are more numerous in this country than had been generally supposed. The Gypsies, who came originally from India, appeared first in Europe in the fifteenth century. It is estimated that there are still half a million in the Old World, most of them in Hungary, Southern Russia, Transylvania, Roumania and Turkey. The name by which they are known is a corruption of the word Egyptians, some of the Gypsies claiming to be descendants of the old Kings of Egypt.

—There is but one editor in the United States who is able to figure up a Radical majority in the next House, and it reflects little credit on the men of this generation, says the Washington Post, when we remember that this mightiest wrestler with figures is an octogenarian and a great grandfather. Pure mathematics is not so thoroughly taught as it was sixty or seven years ago.

—The following resolution, adopted at the State Convention of the Connecticut Democracy, on Tuesday, has the right ring: "We condemn the monstrous frauds and the daring and unrighteous action by which the people of the United States were cheated and deprived of their choice in the last Presidential election—a bold plot and unparalleled fraud which struck at the heart of the Republic; a plot and fraud which shall not be condoned, and shall never be repeated."

—The advent of the Democratic party to power will abrogate the despotism of the money power and stay the hand of those who have used the legislative arm of the Government to rob the producing and laboring classes. With this triumph will come a full and sure relief to our industries, and in it lies the sole hope of the suffering poor.

—Bob Ingersoll has gone to Scotland to study Burns and see what he can do towards making him out an infidel. He expects to lecture on the subject next winter. He is going to investigate Scotch Presbyterianism, too, and see if he can't make something ridiculous out of it. His wife and two daughters are with him—the two interesting damsels, we presume, who "tittered out" when the old clergyman "asked a blessing" at his table.

—It is said that thirty-seven men have been employed for a year in making for the remains of the late A. T. Stewart a burial vault, for which the marble alone cost $210,000. The carvings, in both design and finish, will be exquisitely beautiful, and when completed it will be the finest piece of sculpture in this country. If, with a hundred millions in cash, we had done no more for heaven and humanity than did the "merchant prince" of Broadway, we should feel a little too conspicuous in crawling out of so gorgeous a mausoleum when

"Heaven's last thunder shakes the world below."

The Hon. Joseph J. Davis, our nominee, commenced, on yesterday, his canvass of the county of Orange. There is no county in the District in which his personal popularity is greater, unless it be, perhaps, in his own county of Franklin, and we predict for him a most gratifying reception at the hands of the people. Those of the Democrats of Orange who voted for Josiah Turner, at the late legislative election in that county, did so out of pure sympathy. Since his nomination by the Radical Executive Committee, and his own abject pandering to the negro element, they have no further use or pity for him.

VEGETINE.

Cured Her.

BELLEVUE, KY.

DR. H. R. STEVENS :—

Dear Sir,—I must state that your Vegetine deserves to be called a valuable blood purifier, renovator and invigorator of the whole system. My wife suffered for a length of time with a Scrofula Sore on the leg. She took several bottles of Vegetine. The results were surprising: it cured her, while all the former remedies failed to give satisfaction.

Respectfully, T. F. TRICK'

I know the above to be true.

VEGETINE.—For eradicating all impurities of the blood from the system, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

Vegetine.

PURIFIES THE BLOOD.

BOSTON, MASS., Jan. 13, 1877.

MR. H. R. STEVENS:

Dear Sir,—I have been using Vegetine for some time with the greatest satisfaction, and can highly recommend it as a great cleanser and purifier of the blood

J. L. HANAFORD,
Pastor of Egleston-square M. E. Church,

Nervousness, and all derangements of the nervous system, are usually connected with a diseased condition of the blood. Debility is a frequent accompaniment. The first thing to be done is to improve the condition of the blood. This is accomplished by taking Vegetine, It is a nerve medicine, and possesses a controlling power over the nervous system.

WILL CURE RHEUMATISM.

CINCINNATI, April 9, 1877.

MR. H. R. STEVENS:—

Dear Sir,—I have used your medicine, the Vegetine, for Rheumatism with great success, and believe it to be the best medicine for that complaint that there is. I also know it is a good blood purifier, and at the present time am using it as the best spring medicine that I know of. I take great pleasure in recommending the Vegetine to my friends.

H. MUND, Charles Street.

Thousands will bear testimony (and do it voluntarily), that Vegetine is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities, or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is, as many have called it, "The Great Health Restorer."

Vegetine

FOR DYSPEPSIA.

ASHLEY, ILL., Jan. 12, 1878.

H. R. STEVENS:

Dear sir,—I have been using Vegetine for Dyspepsia, and find more relief from it than all the other medicine I ever used. There is nothing like it for Dyspepsia.

MRS. M. E. FOWLKS.

I am personally acquainted with Mrs. Fowlks, and can certify that the above statement is true.

W. C. PACE, M. D,
Druggist, Ashley, Ill.

Thousands Speak.—Vegetine is acknowledged and recommended by physicians and apothecaries to be the best purifier and cleanser of the blood yet discovered, and thousands speak in its praise who have been restored to health.

JONES' BAKING POWDER

FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding, it is the perfection of science, and is recommended by the leading Chemists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money of every consumer. It stands Unrivaled; we challenge the world to produce better pure and more wholesome goods.

REASONS WHY IT SHOULD BE USED:

A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterated and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder, would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article throughout the West and South, and is recommended by the highest authority for Purity and Strength.

All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

Merchants are authorized to warrant our goods where directions are followed

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNRIVALED."

Lever Feed Cutter,

Is something entirely new and novel in the feed cutter line. With this cutter the feed is cut off diagonally, instead of square across, as is the case with all other cutters, at the same time our cutter has a draw cut, acting exactly on the same principle that a knife is used in cutting off a stick, consequently with our Diagonal Feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.

Weather Probabilities.

WASHINGTON, D. C., Sept. 20.

For the South Atlantic States, falling barometer; southerly winds; partly cloudy weather and occasional rains; stationary or lower temperature will prevail.

LOCAL BRIEFS.

——Revenue collections yesterday were $2,104.81.

——Business was again cheeringly brisk yesterday.

——There yet continues almost no demand for cotton.

——The western counties will be well represented at the Fair.

——About 75 boxes were rented yesterday in the new post office.

——A Baptist revival is in progress at Graham, in which much interest is manifested.

——The feasibility of lighting this city by means of Edison's electric light is being considered.

——The excursion leaves for Fayetteville this morning, at 8:55. The fare is only $1.25, round trip.

——Pastors of the city churches are requested to send in to-day notices of any change in their Sunday services.

——A letter is held at the postoffice addressed to Fred. McCure, Montague's, N. C. There is no such office.

——Dr. Pritchard will preach tomorrow, at 8 p. m., at Crawford's school-house, opposite the fair grounds.

——Cotton is now being shipped in some quantity. A large number of drays were hauling to the depots yesterday.

——The Monogram Hop Club will meet at A. W. Haywood's office, Monday evening at 8:30 o'clock, to transact important business.

——To-day the Republicans will have a meeting in Metropolitan Hall, to consider matters of importance relative to the coming election.

——Where is the idea of the establishment of a chain-gang for street work gone to? Into the limbo of aldermaniac plans, perhaps.

——Cotton was weaker yesterday. The receipts were about 208 bales. The cause of the weakness is the decline in New York and Liverpool.

——The Victors were out on Wilmington street, practising, last evening. Twelve men made a run of 300 yards in 48 seconds, pulling 215 pounds each.

——Wilmington is considering the plan of adopting gasoline for street lamps, and Mayor Manly has been written to for a statement of its value for lighting.

——The Victor Fire Company will give a public exhibition of their proficiency Monday evening at the Lovejoy Grove. They intend to make a run of 350 yards in 50 seconds.

——Captain Timberlake has grown in his garden a pear which measures 13 3-4 inches in circumference and weighs 1½ pounds. As fine a specimen of this delicious fruit as one often sees.

——Letters addressed to the following parties are held in the postoffice, being insufficiently prepaid: Dr J R Thompson, Goldsboro; Alford Baker, Pacific; Alvin Harris, Wake Forest.

——There was a regular rush for boxes at the new post office yesterday morning, and that clever citizen, Charlie McDonald, was kept busy. The boxes are an indispensable convenience, and no one should fail to rent one.

——Mr. J. J. Ferrell, chairman of the Board of County Commissioners, yesterday thoroughly examined the books and accounts of County Treasurer J. B. Neathery, and Superintendent of the Poor House, Riley Yearby. Both were found entirely correct and satisfactory.

——Justice W D Haywood yesterday tried the case of William Melvin vs B H Pearce, obtaining a horse and wagon under false pretenses. This is the third trial of a vexed question. It was given to a jury, but they could not agree upon a verdict, and so were discharged.

——Mr. Mendelssohn, a Jewish Rabbi of Wilmington, has written Mayor Manly, stating that he will come here and deliver a lecture in aid of the yellow fever sufferers if his expenses are paid. He is a gentleman of great talent, one of the first Talmudic scholars in this country.

——To-day the Register of Deeds has been promised by Mr. Armstrong, the binder, that the tax list books will be prepared. They will to-day be turned over to the Sheriff. That gentleman will then be ready to receive taxes and asks all to "walk up to the Captain's office and settle."

——The colored troops here, the Oak City Blues, Oberlin Vance Guards, and East Raleigh Guards, paraded yesterday, the ranking officer, Captain A. Haywood, commanding. The ranks of neither company were full. A dress parade on Hillsboro avenue was well executed. The uniforms of two of the organizations leave everything to be desired.

——Spare the trees in front of the post office. Some persons complain that they hide the building. But never mind that, don't let any of the shade be taken from the streets. Think of the summer days, the glaring whiteness of the building, and leave some bit of green to relieve the eye and refresh the passers. Trim them up, and enclose the trunks in neat iron boxes, but spare the tops.

The Temperature.

Temperature yesterday, as indicated by the thermometer at Tucker's store:

6 a. m.,	75°	2 p. m.,	89°
10 "	88°	6 "	80°

Collector's Sale.

Eighteen boxes of tobacco, together with some stills seized some time since, will be sold at noon to-day in front of the Internal Revenue office.

Bought Him Out.

Mr. J. W. Watson has bought out P. R. Uzzle, and, as appears in his advertisement elsewhere, will conduct the business, hereafter, at the same place.

Abstract of Taxes.

The State Auditor has received an abstract of listed taxables from Clay county, by E. G. Smith, Register of Deeds, as follows:

General Taxes,	243.65
Special "	249.50
School "	659.52
General "	1,740.40

The Champion Belt.

Gid Arrington, of Hilliardston, Nash county, N. C., carried off the prize for game chickens at the Philadelphia Centennial. See his diploma on the wall in the Yarbrough House office. His fowls are large, handsome and healthy, and of the most approved breeds for sporting or table use.

M. T. Leach.

This reliable and enterprising merchant gives an attractive advertisement in this issue. Mr. Leach is one of the leading grocers in the city, and knows all the requirements of his trade. Country merchants will find his store a desirable place for good bargains in shoes.

McCallum and Cooper.

This firm of iron founders and machinists are well worthy of that public acknowledgement of the superiority of their manufactures which is so generally accorded them. The reliability of all articles made in their shops is only equaled by that of the members of the firm.

State Guard Notes.

The Milton Blues, an ante-bellum military organization of great merit, has reorganized. The following are the commisioned officers: Captain, W. T. Farley; 1st. Lieutenant, R. L. Walker; 2nd Lieut., Henry H. Dodson; Jr. 2nd Lieut L. H. Walker.

Company K., of the First Regiment, N. C. S. G., has departed this life as an organization. One of the fine new organizations, perhaps the Durham Light Infantry or the Roanoke Light Infantry, will take its position in the regiment.

Ruling of the State Auditor.

In regard to the inquisition of lunatics, the State Auditor rules, in which ruling he is sustained by the Attorney-General, that when a person has been duly declared a lunatic, in accordance with chapter 284 of an act concerning the maintenance of lunatics outside the Insane Asylum, ratified March 12th, 1877, there is no necessity of another or second inquisition, unless it is in cases where doubts are entertained as to the continuance of insanity of a person who has been so declared insane.

Personals.

J L Morehead, Esq, of Charlotte, is at the Yarbrough.

Julius A Gray, of Greensboro, is registered at the same hotel.

Col. L. C. Jones, of Fayetteville, is in the city, as is also M L Holmes, Esq, of Salisbury.

Col D M Carter has sufficiently recovered from his severe illness to make his appearance on the streets again.

Maj. J W Graham, Hillsboro, Maj. D. McRae, Wilmington, and Judge Geo W Brooks, of Elizabeth City, are all at the Yarbrough.

Convicts Discharged.

The authorities of the State Penitentiary yesterday discharged from that institution Sam Diggs, colored, convicted in Anson county of larceny, and sentenced to the penitentiary, October, 1873. He is about 21 years old, five feet, seven inches high, and weighed, when admitted, 134 pounds.

To-day they will release Henry Cole, colored, convicted in Wake county of larceny and sentenced to the penitentiary, January, 1875. He is about 30 years old, five feet six inches high, and weighed, when admitted, 160 pounds.

Post Office Notes.

Each post office box or drawer, in all post offices, is restricted to the use of one family, firm, or company, and the rent therefor must be paid at least one quarter in advance. A person renting a post office box is entitled to have the letters of his family, firm, or company, put into it. Letters addressed to his friends stopping temporarily with him may also be placed in the box, if directed to his care or to the number of the box. But letters addressed to other persons residing in the same place, and living and doing business separate and apart from a box-holder, should not be placed in the box.

A Raleigh Lady-Bird.

A late issue of the Chapel Hill Ledger contains the following allusion to a charming Raleigh lady, written from the Warm Springs:

"Another large gathering—much more gratifying because the ladies are in it—is to be found whenever it is announced that Mrs. Jenkins, daughter of Rev. Dr. Pritchard, is at the piano in the ladies' parlor. The room itself, the passage on one side and balcony on the other will then be crowded with silent listeners, entranced by what all declare to be the sweetest singing they ever heard. It is truly marvelous."

A Fine Display.

Mr. J. A. Higgs, the wholesale salesman at A. Creech's large establishment, yesterday exhibited to a News reporter the stock of dry goods already received. From cellar to garret the house is packed with new goods and the puzzle was where it is possible to put the several hundred cases which Mr. Higgs says are yet to be received. Mr. Creech will be better prepared to furnish country merchants this season than ever before; his stock being by far the largest he has ever bought.

A Reliable Corporation.

One of the first Insurance corporations in the Southern States is the North Carolina Home Fire, of this city. Built up here, it has grown steadily into popular confidence and favor. The perfect management, the systematic habits of its officers, have become features of the Institution, while its solvency and promptness in settlement of all claims earn for it the measure of business it so well deserves.

A home company, in every sense of the word, it has become one of the landmark corporations of the State.

Some time since it was completely reorganized, and among others such gentlemen as John G. Williams and W. H. Crow, Esqrs., found places on its Board of Directors. With gentlemen of such rare energy, business tact and means, to control and guide its destinies, the company is assured of a future even brighter and more useful than its past. Under the new management the happiest results follow, and new business is in a good condition.

The officers in charge of the office, Messrs. W. S. Primrose, Secretary, C. E. Root, P. Cowper and John Devereux, are gentlemen who make their business a pleasure, and whose names give confidence to insurers everywhere. Elsewhere the attractive advertisement of the Home will be seen.

For the Suffering.

The sum of $166.85 was sent to the Executive office yesterday, through J. B. Young, Esq, of Henderson. It was contributed by the whole-souled citizens of that charming little burg. Henderson has heretofore contributed $63 55 to this noble cause. All honor to her people for their kindness.

The sum of $13.85 was also received at the Executive office from Clinton.

Mayor's Court.

After a delightful visit to the seaside, Mayor Manly puts in an appearance, and greeted the reporters smilingly, as of yore, yesterday.

At his criminal levee yesterday morning, a brace of offenders who had disturbed the peace and propriety of the market, were fined $5 and costs, each. Their names were Thomas Chavis and William Sawyer, both colored. Offenders of this sort are always nabbed, and as they deserve, properly punished.

Working for the Fair.

The Charlotte Observer says:

Mr. W. A. Turk, who has so many friends in Cnarlotte, where he formerly lived long enough to make everybody like him, was in the city, yesterday, in the interest of the approaching State fair. His geniality and jollity constitute him a valuable worker in any cause in which he interest himself and certainly the society could not have sent to Charlotte any one, who could more readily win for the Fair the good will of our people. Mr. Turk had the city billed, yesterday, with the handsome illuminated posters of the fair.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural results. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia and Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles, to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

New Store—New Goods.

Having opened a grocery and general merchandise store in the Adams building, No. 2 Martin street, I would announce to my old customers and the public generally, that I shall keep in stock a large and varied selection of dry goods, groceries, boots, shoes, &c., &c. Buying at cash prices, as I do, I can at all times compete with the market and afford my customers all the advantages offered to the trade. I shall be glad to give strict personal attention to all business in my line. W. E. Dupree, Raleigh, N. C., Martin street, Adams building. *

Prompt Reform of Bodily Evils.

The prompt reform of those bodily evils, enfeebled digestion, incomplete assimilation inactivity of the liver, kidneys and bladder, as well as of the nervous symptoms which these ailments are especially prone to beget, is always accomplished by the use of Hostetter's Stomach Bitters, a medicine accredited by physicians, pronounced pure by analysis, and eminently wholesome and agreeable. Surely such a restorative is preferable to unpalatable and indigestible mineral drugs and unsanctioned nostrums. The nation at large assuredly thinks so, judging by the unprecedented demand for the article from Maine to the Pacific, a demand now supplemented by immense orders for it received from tropical America, Mexico, the British and Spanish Colonial possessions, and elsewhere. Both at home and abroad it is recognized as a standard remedy and preventive, the decisiveness of its effects recommending it everywhere.

HOME REMEDY.

THE MOST WONDERFUL DISCOVERY OF THE AGE!

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction. While my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood, and probably for other diseases.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON,

Dear Madam, I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the Doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine appeared to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I don't think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and respectfully,
JOHN N. BULL, Box 10,
Fayetteville, N. C.

For my personal reliability, I refer, by permission to Rt. Rev. Thos. Atkinson, D. D., North Carolina; Geo. A. Foote, M. D. Warren, Co.; Hons. J. J. Davis and C. M. Cooke, Franklin Co.

The above medicine is for sale by Pescud, Lee & Co., Wm. Simpson, and F. H. Heartt, Druggists Raleigh, N. C., or it may be ordered direct from me. For further information, enclose stamp for Circulars to
